	<p>NOTES: Information current as of November 2019, collected from provincial pharmacy associations and ministries of health. Claims data are for fiscal year ending March 31, 2019, with the exception of Quebec, where the data is for year ending June 30, 2019. In Alberta, pharmacists with additional prescribing authority (APA) are authorized to prescribe any Schedule 1 drug based on their patient assessment. In Saskatchewan, the emergency contraception prescribing program became part of the minor ailments program on Nov. 1, 2018. In Manitoba, claims data for pneumonia and Tdap immunizations include non-publicly funded injections. In Quebec, legislation requires private insurance plans to pay the same professional service fees as the public plan, except for refusals to fill and Pharmaceutical Opinions. This chart gives claims data for both public and private plans. Funding for professional fees kicks in after patients meet the universal drug plan's requirements for deductibles and co-pays. In Newfoundland and Labrador, the Antibiotic Medication Adherence program was discontinued on Jan. 27, 2019. The PPI deprescribing service (part of SaferMedsNL) was implemented on Jan. 28, 2019. In all provinces, pharmacists also have authority to prescribe emergency refills.</p>
