

Minor Ailment Prescribing **Workflow**

Scope in Action: Showcasing Practical Tools for Pharmacists

CEO & Co-Founder

Nardine Nakhla

Hello, CFP Friends!

MAPflow

is a cloud-based, clinical decision-making & implementation support tool that facilitates minor ailment prescribing services for the pharmacist

MAPflow Highlights

- Flexible
- Per pharmacist subscription
- Flat fee for the year
- Integrated with the CPS
- Within scope prescribing
- Comprehensive follow-up protocol
- Auto-generated documentation and prescription(s) meeting all provincial regulatory requirements + billing PIN
- Auto-generated referral forms with a sound rationale for referral + billing PIN
- Auto-generated, tailored patient & primary care provider reports

Assessment Workflow

- Choose from 15 minor ailment prescribing modules (including COVID-19 (Paxlovid™) + 6 ailments in Fall 2023
- Workflow follows pharmacists' patient care process with progress shown for each step
- Complex logic
 - Questions enabled/visible based on other answers
 - Treatment options presented for selection based on answers
 - For therapeutic options, the correct dose and regimen presented, with pharmacist ability to modify fields

MAPflow Highlights

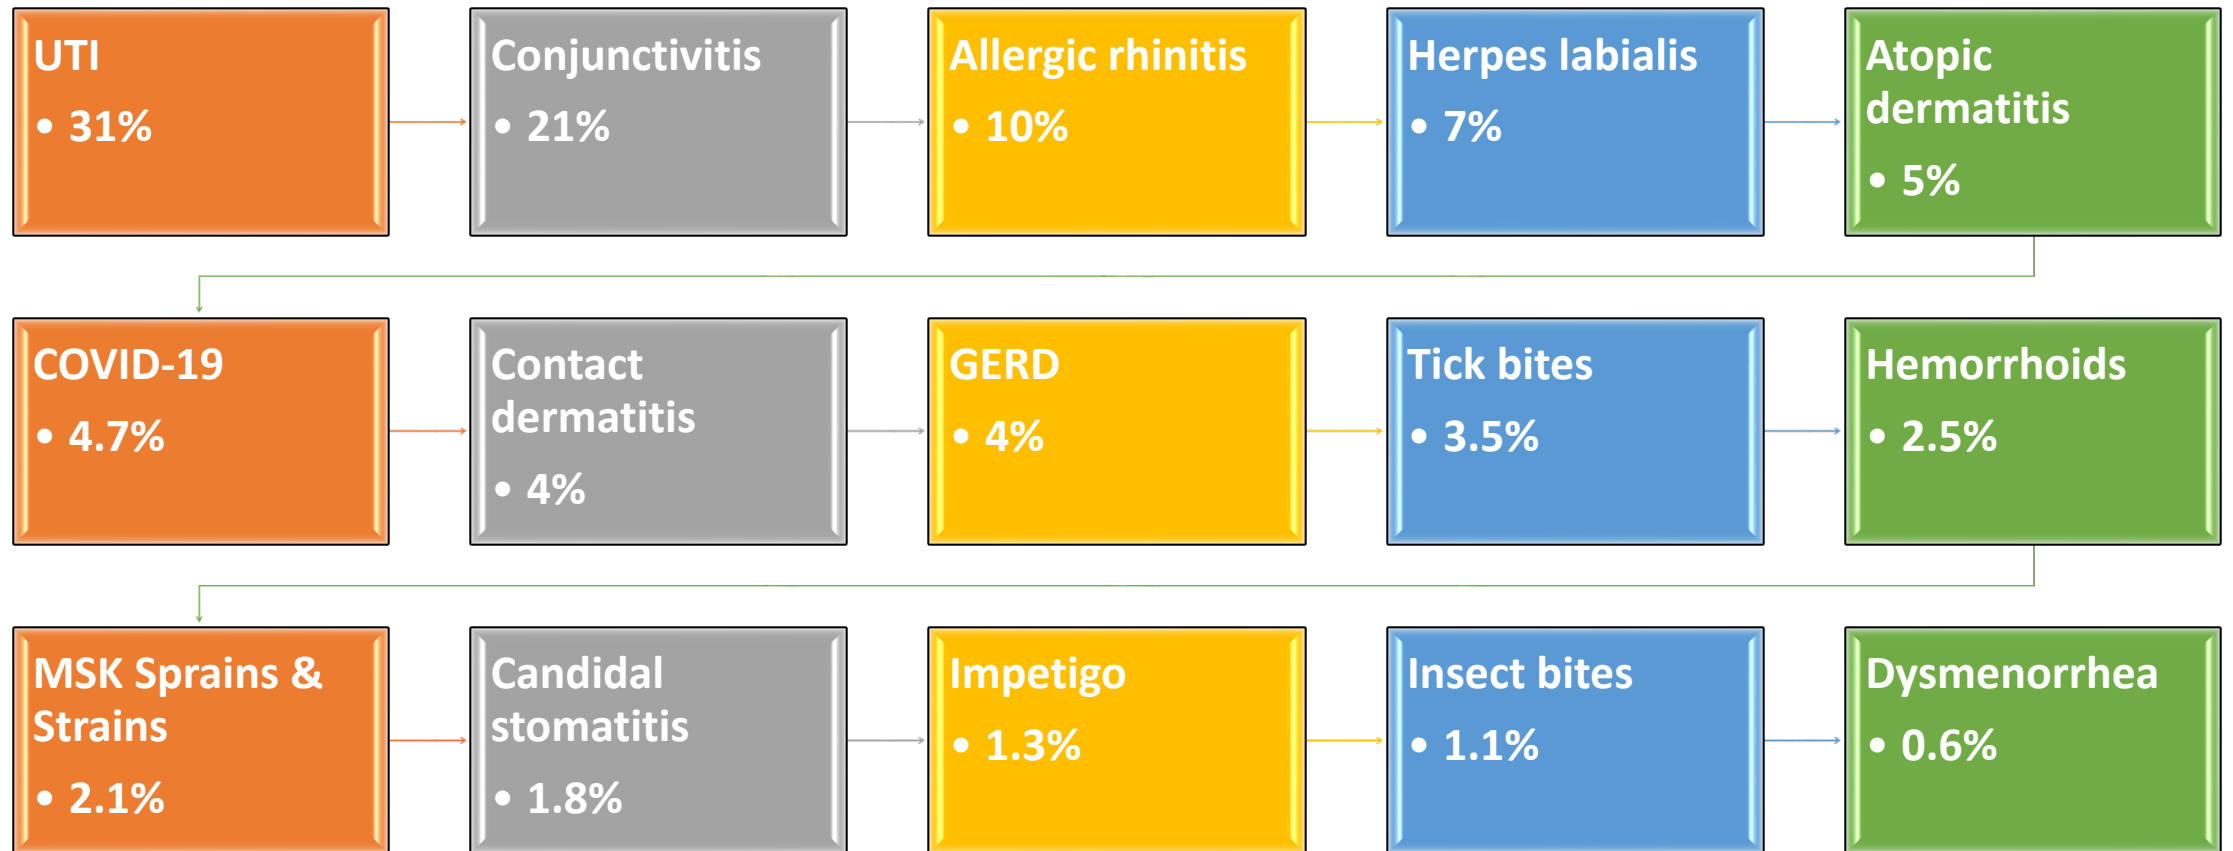

- Cuts down service time from 15-30 minutes/assessment to **6-10 minutes/assessment**
- Triggers additional clinical services when appropriate
- Key performance indicators on dashboard
- Pharmacy level controls on pharmacist inclusion to store-level data
- Tracks number and types of assessments conducted, follow-up appointments completed, referrals made, total \$ in direct billing to provincial plan, etc.

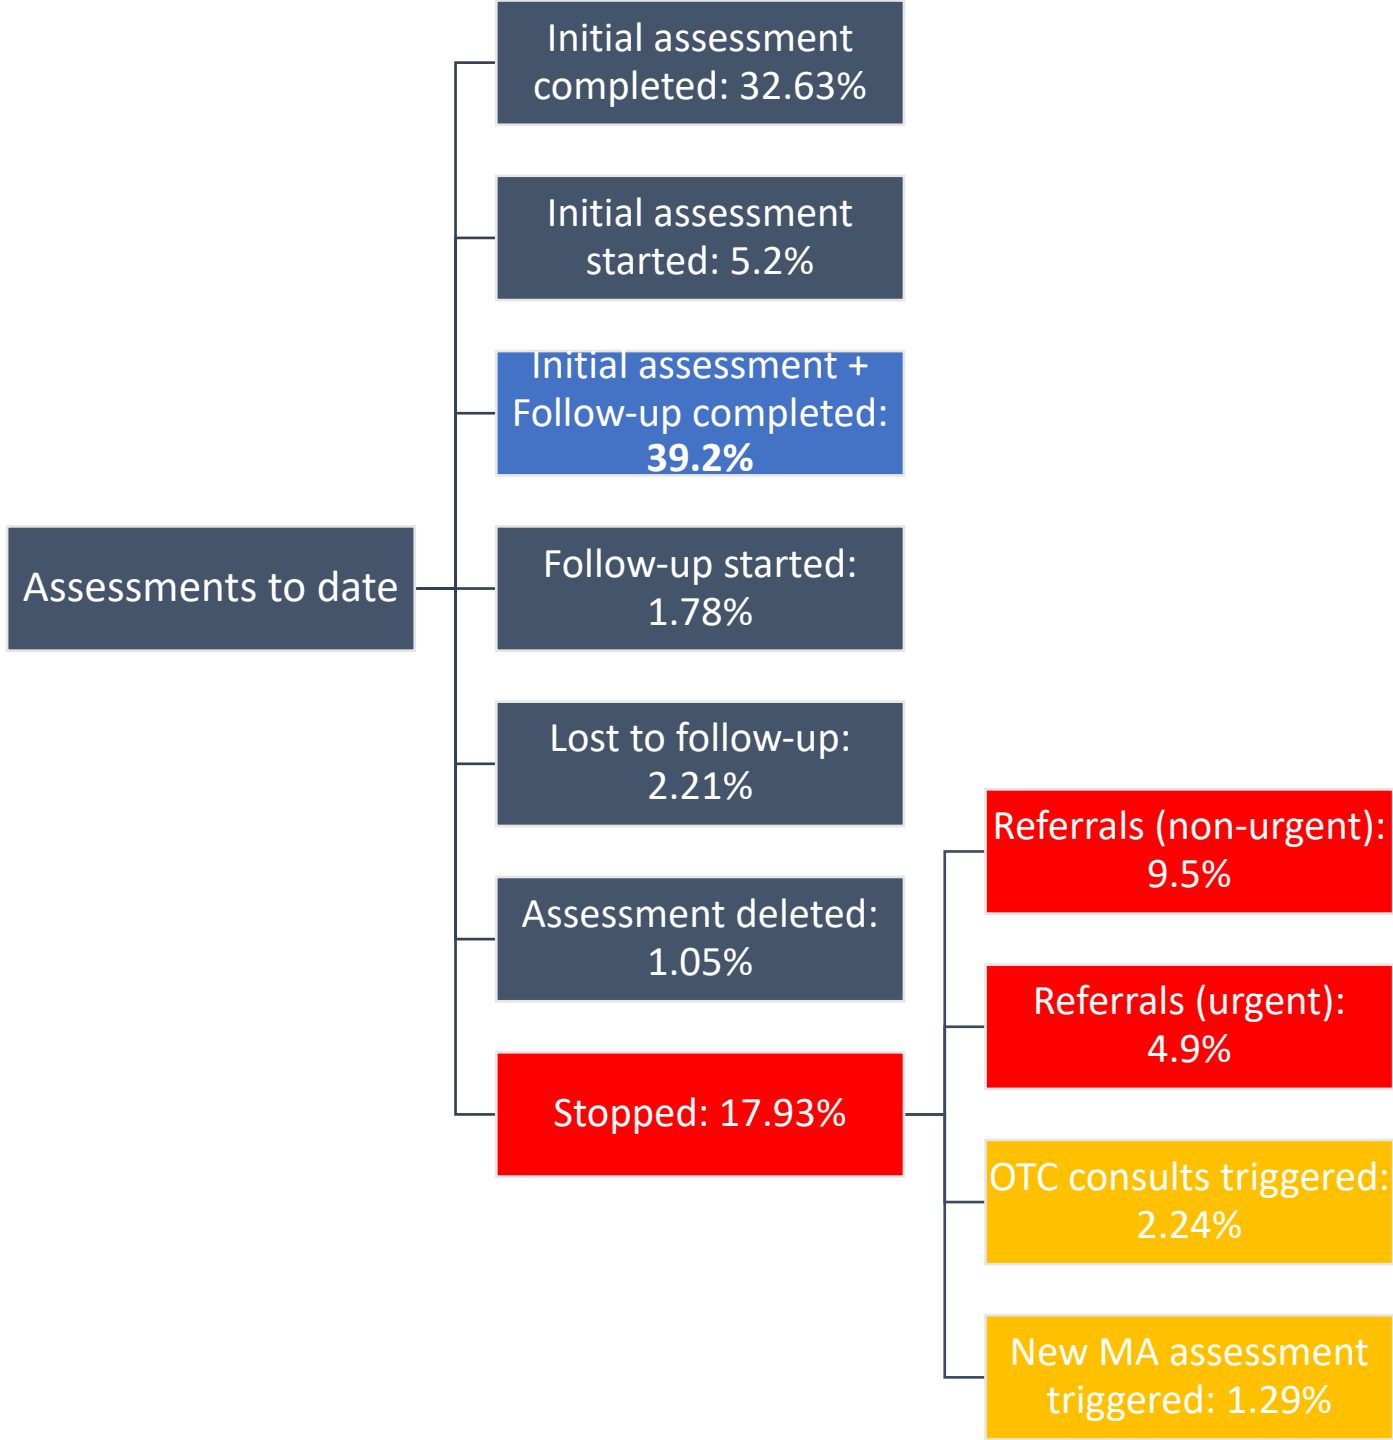

What minor ailments are patients most often engaging with pharmacists on?

MAPflow Data (as of June 25, 2023)
